how rarely they carry it to its broad-est application. est application. Every mother is perforce laying up for her child what money cannot in-fluence—happiness or misery. The nervous mother will have a nervous child. The irrita-

ble and fearful mother cannot have a happy and cheerful child. In mind and body the child will reflect the mother's condition. The best preparation for motherhood is The best preparation for motherhood is made by the use of Dr. Pierce's Favorite Prescription. Its perfect control over the sensitive femiuine organism gives it a natural influence over the mind. It banishes anxiety and fear. It does away with the misery of morning sickness. It gives vitality and elasticity to the organs peculiarly feminine, and makes the trial of motherhood easy and brief. It makes healthy mothers, capable of nursing and monrishing the baoes they bring into the world. "Favorite Prescription" contains no alcohol, whisky or other intoxicant. Accept no substitute.

alcohol, whisky or other intoxicant. Accept no substitute.

Mrs. Axel Kjer, of Gordouville, Cape Girardrau Co. Mo., writes: "When I look at my little boy I reel it my duty to write to you. Perhaps some one will see my testimony and be led to use your 'Pavorite Prescription' and be blessed in the same way. This is my fifth child and the only one who came to maturity; the others having died from lack of nourishment—so the doctor said. I was not sickly in any way and this time I just thought I would try your 'Prescription.' I took nine bottles and to my surprise it carried me through, and gave us as fine a little boy as ever was. Weighed ten and one-half pounds. He is now five mouths old, has never been sick a day, and is so strong that everybody who sees him wonders at him. He is so playful and holds himself up so well. I would like to see this in print for so many have asked me, 'Do you think these are the testimonials of the people, or has Dr. Pierce just made them up and printed them?'"

[COMMUNICATED. ALEXANDRIA. In the Gazette of the 28th inst.

there appears an article headed "Will the procession return?" and then it goes on to say: "People whose recol-lections can go back to ante belium time, and who walk around the wharves of old Alexandria today, are doubtless cast into reveries when they contrast the past with the present existence of things both on the Strand and on Union street." Alexandria could be as great a commercial centre today as in days gone by, and the facilities are far better, but, the enterprise is not here. In the ante bellum days "John Jones" who had a few hundred dollars put up his cash, bought supplies of every kind. and shipped and traded with other countries, as well as with his own people and hired men to load and ucload boats of every description as well as steam cars, and thus this city became an exchange. Money and work at that time were plentiful as the older inhabitants can testify. Today what is the case? Go down on the Strand and find out how long it will take one to get employment. Men made money in trading in Alexaudria and left spur fortunes behind for their children and randchildren. That money is sealed up in cash boxes in the vaults of some panking institution or in some stock to bleed the poor and suffering. Ask them to start an industry to help suffering humanity why they will give you the "cold stare." Then ask what are the trusts doing. Look around and open your eyes. A good clerk today cannot get within 40 per cent, of the wages he received fifteen years ago and the sal-aries are still diminishing every year. By the look of things in a few years the man will be what the horse will be (only to a certain extent) a thing of

The time has arrived for Alexandrians to take some steps to start small manufacturing estabfor outsiders to do so. We have smart enough to soon pick up what knowledge they lack. Between \$50,-000 to \$100,000 can be raised very easily on the monthly installment plan, and we can start a dozen smell industries, which, wisely conducted, will grow into large ones. When outside capital sees that we are in earnest about starting manufactories ourselves, they then may find this is the best point, and start others themselves, or may put up part of the cash and we asist them, etc., etc.

An Alexandria cooperative mapufacturing association can be chartered, 1000 shares par value \$100 can be sold payable monthly if necessary; paid up stock to be issued the holders participating in the profits of the factories; all matters of outlay to be under a board of managers consisting of our best business men. This money so raised is not a gift, but a business propcattion, where stockholders will participate in all profits. There is no foolishness, no put up job, no axe to grind, but an earnest effort to bein ourselves There are very few too poor to pay, say, \$2 per mouth, and from that up to \$50 per month, when they know they will get it back in time with interest. Other cities work cooperative schemes successfully, why not Alexandria? We can do it; we must do it. Let us hold a mass meeting of the citizens and talk this matter over at once.

An Epidemic of Diarrhoea. Mr. A Sanders, writing from Cocoa-nut Grove, Fla., says there has been quite an epidemic of diarrhoea there. QUESTION ANSWERED.

Yes, August Flower still has the largest sale of any medicine in the civiized world. Your mothers and grand mothers never thought of using any-thing else for Indigestion or Biliousnees. Doctors were scarce, and they seldom heard of Appendictis, Nervous Prostration or Heart failure, etc. They used August Flower to clean out the system and s op fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. For sale by Ernest L. Allen, Claud M.
